

Orbital XI technical specifications

Orbital XI 12x12 water-wash system

The Orbital XI is a multi-function plate processor for letterpress plates up to 12"x12". Ideal for short run processing of letterpress plates, the Orbital XI is simple to use, versatile and ideal for crowded working areas. This stack-style processor features an orbital washout, exposure section, and a three-drawer dryer. Components are easily accessed from the front. Features include a stainless-steel washout section to prevent corrosion, analog timers, vacuum pump and electronic solid-state ballasts. A thermostat controlled, three-drawer dryer uses forced hot air for efficient plate drying.

dimensions

- 21" (wide) x 24" (deep) x 27" (high)

weight

- Approximately 118 lbs.

electrical

- 120 volt/single phase/60Hz/ 8 amps

washout

- Stainless steel wetted parts area
- Temperature-controlled washout tank (3.2 gallons, 3/8" inlet and 3/4" drain)
- Magnetic or pvc plate carrier sheets that attach magnetically to the platen.
- Easily-adjustable brush mount

exposure

- 8 exposure lamps
- Solid-state ballast
- Analog timer
- Vacuum pump
- Easily-accessible lamp drawers

dryer

- Three individual drying drawers
- 200 watt heater
- Thermostat-controlled temperature

For 50 years, A&V has supplied materials and equipment that are good for you and good for the environment.
